

Winfield Farm & Forge, LLC

Welcomes you and yours
To our family...

Letting your horses go to a training barn can be a hard thing to do, leaving you fearing the worst and dreading the bill. Rest assured that our rates are very reasonable to the industry standard and our service is hands-on and personal. No production line training, no overpriced show fees, no secrets and no surprises.

A training program is mapped out for each horse and costs are discussed and agreed upon up front. Clients are encouraged to watch training sessions. The comforts of the horse come first. We live on-site for 24-hour care. All agreements are in writing to establish clear goals and expectations.

We want our clients to sleep at night because they do not worry about their horses in our care. Owning a horse is an emotional roller coaster and horse shows, while exhilarating and nerve-wracking, are supposed to be fun. If our horses aren't happy, if our clients aren't happy, we are not doing our job.

That being said, it is a new chapter for our farm and we are celebrating another year on our new property. A lot of work has been put into our facility to offer the best we can in our fledging years. Improvements will continue as time goes by but the quality of our training and care will always be top notch. This upcoming show season will be an exciting debut of all our dedication and hard work and we thank you for joining us.

Sincerely,

Sarah and Kevin Vas
